NEW SWEAR-IN ADVOCATES

This past month, we welcomed our June and July pre-service training advocates as they were officially sworn in. These new advocates are committed to fighting for the truth and the needs our kids deserve. We had 5 new advocates join us, and they are excited to begin their journey as CASA advocates.

FOLLOWING LAUREN

One of our new advocates, Lauren Ramos, allowed us to follow along her journey of becoming a CASA advocate. From this, we were able to have insight on pre-service training, the swear-in process, and what initially interested Lauren into becoming a CASA advocate. Her first interview is now live on our [Facebook Page: CASA For Kids of East Texas](#).

IMPACT STATEMENT

A CASA advocate attended a teen's basketball game and made sure that everyone knew who they were there to cheer for because she took her cowbell. The teenager had previously never had anyone attend his sporting events.

CASA IS STILL MAKING A DIFFERENCE

In a recent continuing education presentation on Adverse Childhood Experiences (ACEs), Dr. Brandon Bretl shares, "research confirms that having one positive role model can have a major impact on a disadvantaged child."

CASA Advocate: "What was a positive for you this year?"

CASA Child: "You."
